Malecsoft Solutions

شريكك فى نظم الاتصالات و تقنية المعلومات تعتمد عليه

Your Dedicated ICT Solutions Partner

Our Clients
Our dedication; your success.

Malecsoft was established in 2010 and Merged with PTS whom was established in 2007 as a regional independent solutions and services company in 2013 and called now MSC to be dedicated to unparalleled excellence in the ICT and infrastructure services markets. PTS offers a broad range of complementary services designed to make facilities run safely, reliably and cost effectively.

The merge brought the capital to0.1M KD Company established in Kuwait under the objective of becoming a dedicated Technology hands on Service Company in Middle East, North Africa and wherever our services required.

MSC delivers on customer commitments knowing that our success depends on making your facility a success. Through all of our services, our core values underpin everything we do—you can count on MSC for a commitment to safety, regulatory compliance, the delivery of cost effective solutions, flexibility to respond to your goals.

This Statement of Qualifications demonstrates our capability. for skills, technical know-how, and depth of resources to deliver excellence. We live up to our reputation through world class leadership, a culture of excellence, and an environment of integrity and trust.

Victory Arch International Partners & Distributor

Mobility & RFID Solution

VA's RFID solutions enable you to advance your business to a new level of efficiency by providing greater visibility into your inventory as it moves across the supply chain.

Assets Management & Tracking System

The perfect solution For tracking The Company assets with Barcode & RFID technology.

Malecsoft Solutions presents a complete Fixed Asset & Inventory Tracking software that enables users to conduct comprehensive, cost-effective physical audits. Barcode labels, attached to assets and inventory items, and handheld scanning devices are required to conduct the physical audit. The process is quick and easy.

Warehouse Management Solution – WMS

VA - WMS is an advanced warehouse management system designed to support business-critical operations of a modern fulfillment center by providing a complete end-to-end solution to manage complex and demanding operations.

The flexibility and configurability of the application allowed for its utilization in the distribution centers/stores within the entire facilities and ensured that the operations are using 'best business practices'.

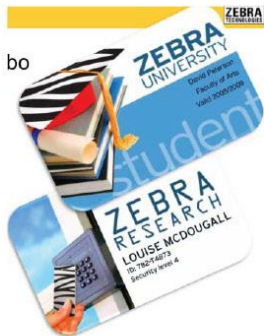

Improve Inventory Accuracy

Increase Labor Efficiency

Improve Inventory Slotting

Easy Cycle Counting

Improved Picking Efficiency

Supports Customer Compliance Needs

Human Resource – HR Solution

Malecsoft Solutions HR has distinguished itself as a leading human resource solution with more than 14+ years of industry expertise and leadership. In today's economy, it's important not only to deliver complete human resources and group benefits administration solutions with potential soft-cost savings, but to demonstrate real hard-cost savings, as well. VA HR charges less than most payroll processing firms, but delivers much more.

HR Mission
- Strategy
- Operations
- Employee Performance
- Compliance

Identification Card Solutions

The VA Assure ID changes the paradigm of how ID card personalization software looks, feels and performs. A fresh new user interface and simplified processes make ID card template design and data entry a breeze. Its suitable for the : Photo ID, Access Control, Retail/Pos, Club Membership, Visitor management, Healthcare, Governments, Colleges & University, ..

1 Operating Systems, Server Hardware & Storage Solutions

With a myriad of operating systems available, Victory Arch can help you choose the best operating systems, server and storage solutions that best meet your IT environment and business needs.

Malecsoft Solutions offers a broad systems and storage portfolio combined with decades of experience solving real business problems. With Blade Server Solution and Server systems, disk, tape and network storage systems, Victory Arch can offer the right combination of systems to meet the challenges of your business.

2 Mobility Solutions

Lets your employees work away from your company's physical location. Because Victory Arch has used mobility solutions as part of our business model, we are the best IT services provider to help your business choose and implement mobility technology.

Remote offices: are an affordable way to extend your company's office space.

Remote workforce: technology solutions give your employees access to IT tools when they are out of office.

3 Virtualization Solutions

Lets you stretch your IT budget by creating non-physical copies of applications, workstations, and servers on existing machines.

Server virtualization: allows multiple servers to be installed on one or more existing machines.

Desktop virtualization: removes the need for a CPU at each computer station.

Application virtualization: separates individual software applications from the operating systems of workstations.

4 Structured Cabling System

Structured cabling is building or campus telecommunications cabling infrastructure that consists of a number of standardized smaller elements (hence structured) called subsystems.

Structured cabling falls into six subsystems:

Demarcation Point is the point at which the telephone company network ends and connects with the wiring at the customer premises.

Equipment or Telecommunications Rooms house equipment and wiring consolidation points that serve the users inside the building or campus.

Vertical or Riser Cabling connects between the equipment telecommunications rooms, so named because the rooms are typically on different floors.

Horizontal wiring can be IW (inside wiring) or Plenum Cabling connects telecommunications rooms to individual outlets or work areas on the floor, usually through the wireways, conduits or ceiling spaces of each floor.

5 Networking & VoIP Solutions

Networking is an integral part of core infrastructure. Victory Arch, IT consulting services firm can help an chose the best networking solutions.

VoIP is an integrated phone solution that eliminates the need for a stand-alone telephone system. With a VoIP solution your phone services will operate with your IT environment to give your business access to features that are not available with a traditional telephone system.

6 IT Security Solutions

It is the umbrella term for layered protection that protects your IT environment from internal and external threats. Victory Arch, an IT support company, has the experience to help your company create and implement an IT security plan to protect your company's IT environment, intellectual and financial assets.

Policies are written rules that are created to guide the behaviour of your staff when they use your company's IT environment.

Defence in depth planning is the comprehensive IT security plan that an IT consulting company will customize to meet your business's needs.

Malecsoft Solutions

7 Outsourcing and Maintenance contracts

Malecsoft Outsourcing services allows you to concentrate on your core businesses, freeing your human and physical resources to concentrate on your critical tasks. This will results in savings in your bottom line.

Our Maintenance Contracts lets you take advantage of our specialized technicians and software engineers who are well versed in the products that we sell and the software that we develop or implement. We can offer you a plan that suits your needs and that will save you time and effort.
